

Seventh Dimension (7D) provides focused customer support in two core competencies Training & Support Services. Since 2015, we have provided customers with flexible, adaptable, and creative approaches to solving complex problems. We are a proven prime contractor that understands future operating environments, fiscal constraints, and current force requirements. We are a SDVOSB in North Carolina with a TS Facility Clearance, Secret storage and a DCAA compliant accounting system. 7D is an active member of MTEC.

Differentiators:

- 7D possess a proven multimodality capability with established online, classroom, clinical and scenario-based instruction. Sustaining a 15% higher than national average 1st attempt pass rates for National Certifications.
- 7D is a certified medical training facility recognized by the National Maritime Center, US Coast Guard (SEVEND-953), National Association of Emergency Medical Technicians (NAEMT) (Training Center ID 7968), Commission on Accreditation for Prehospital Continuing Education (CAPCE) (Facility Number SEVD0222) and an affiliated American Heart Association training site.
- 7D has conducted over 30 medical culmination exercises in the last 3 years for USSOCOM elements
- DoD approved training facility for Tactical Combat Casualty Care (TCCC) Tier 1 - All Service Members and Tier 2 - Combat Lifesaver.
- Only authorized SOFACC provider and refresher organization as per the CG, USASOC memo dated December 2018.

Experience:

- Since July 2017, 7D has been the prime contractor of the United States Army Special Operations Command Austere Care Course (SOFACC) at Fort Bragg, NC conducting over 18 x 6 weeklong SOFACC / Prolonged Field Care Training courses in three (3) years which includes personnel from all branches of Special Operations.
- From October 2015 until April 2019, 7D was the major subcontractor at Joint Special Operations Medical Center providing Instructors and Instructional Support.
- Since October 2018, 7D has been conducting capability, training, and doctrine development for US Army Medical Command (MEDCOM) for the *Development of a Prolonged Field Care Training Module* (W81XWH-18-R-0016) that incorporates modeling and simulation for use in Military Medical Education and Training Programs. 7D conducted research from evidence collected from data-driven casualty estimations and disease or non-battle injury/battle injury rates in past and current operations (such as the DoD Trauma Registry (DoDTR), Joint Trauma System (JTS), Armed Forces Medical Examiner, and U.S. Army Medical Department Center and School (AMEDDC&S) Statistical Analysis Cell). 7D is currently supporting the development of a prolonged field care training conducting Instructional Analysis and Lesson Plan development. This PFC training module incorporates modeling and simulation into the military medical education and training systems incorporating all clinical practice guidelines (CGP) and JTS treatment guidance.
- 7D as the prime contractor (March 2020) support the MSOC F (H92257-20-P0023) with medical pre-deployment training at Camp McGrady, SC. During this event 7D provided medical lane instructors, amputee role players, program manager, moulage artist and other logistical support. This training exercise allowed the MSOC to train and recertify on medical tasks prior to deployment.

- Seventh Dimension was a major subcontractor from 2017 - 2018 providing the Marine Raider Training Center (H92222-16-D-0023) with medical training subject matter experts (Individual Training Course - TCCC) and clinical support staff (Milam Clinic) that conducted scheduled and on-call support to the credentialing and medical needs of the Marine Special Operations Command.
- 7D was the medical subcontractor from 2015-2018 providing the Air Force 38th Para-Rescue Squadron (FA4830-15-A-0015) Combat Rescue Officer and Pararescue medical training in support of pre-deployment certification to include scenario development and Full-Mission (FMP) Exercise Support.
