SoftOx Solutions is a Norwegian medtech and biotech company, established in 2012 with the aim to help the world fight infections caused by biofilm, multidrug-resistant (MDR) microbes and viruses.

SoftOx is developing antimicrobial agents for prevention and treatment of wound and airway infections, aiming to bring both medical device and drug products to market. For more information, visit www.soft-ox.com

Having no effective treatment options for MDR pathogens and biofilms creates a growing medical need, and SoftOx aims to solve this challenge.

In-vitro antibacterial efficacy in biofilms

- Broad antimicrobial spectrum
- Kills bacteria inside biofilms
- Does not induce antimicrobial resistance
- Good tolerability profile – no systemic side effects
- Versatile technology platform

Current efforts in DoD – an awardee of 20-02-NavyMultiTopic for clinical development of SoftOx Biofilm Eradicator (SBE)

Product pipeline

SoftOx, a development company, seeks strong funding and commercial partners

SoftOx is a member of MTEC (since 2020), an MTEC awardee (2021), member of the Norwegian Defence and Security Industry Directory (FSi), and has ongoing R&D collaboration with the Norwegian Defence Research Establishment (FFI).
